

Dear Hiring Team,

I am writing to express my interest in opportunities within your organization. I am a B.Tech graduate in Information Technology with professional experience in software development, particularly in Java, Spring Boot, REST APIs, microservices, and backend technologies.

In my current role, I have worked on developing and maintaining backend services, implementing APIs, working with databases, and contributing to microservice-based applications. I have also gained hands-on experience with technologies such as Docker, AWS, Spring Cloud, OpenFeign, Git, and SQL. Along with development, I have experience in testing and debugging applications, which has helped me build a strong understanding of software quality and reliable system development.

I am a quick learner, adaptable, and passionate about solving technical problems and continuously improving my skills. I would welcome the opportunity to contribute my knowledge and experience to your team while continuing to grow as a software professional.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experience can contribute to your organization.

Sincerely,  
Shubhi Chandra
